Satellite Trailers

Engineered for all Environments

Satellite Trailer

Satellite trailers are deployed in areas where remote sites require satellite transmission for Broadband, Phone, Pay TV Services or other applications.

Fabricated from fully welded, hot dip galvanised steel and incorporating extendable outriggers for uneven ground stability. They have IP rated outdoor enclosures for equipment, Hurry Up 8mtr Extendable Mast, provision for a Satellite Dish up to 2.4m, aluminium checker plate and scope for other components to be incorporated as the need arises.

Our Satellite Trailers are primarily used by telecommunication service providers, mining, oil and gas companies as well as government organisations, however, the flexibility of this unit can be adapted to suit many other applications.

Key Features

- ✓ Easy operational satellite dish
- ✓ Fully engineered trailer chassis frame, dual axle
- ✓ Electronic and Emergency Braking System
- ✓ Weatherproof construction
- ✓ Fire extinguisher/s
- ✓ Extendable outrigger assembly
- ✓ 20RU twin skin air-conditioned cabinet
- ✓ Road registrable trailer

Typical Satellite Trailer

Common Variations

- Registered trailer
- Generator AC / DC
- DC System
- Additional cabinets & storage for battery bank and power control equipment
- 8-12m mast options to suit various antennas
- Solar Skid Power Packs to extend power & range
- Support ladder
- Axle Options:
 - Control Rider / Tonnage Ratings

Custom design and construction available, please contact ICS Industries for more information.

Additional Services and Support

Our Services Division can provide total care and support for your Rapid Deployment fleet including:

- Site design, civil & electrical engineering
- Deployment, integration and decommissioning services
- Fleet management, including warehousing and logistics
- Planned & emergency services, maintenance & upgrade works

At ICS, we undertake a consultative approach towards your project. Whether you require one or all of our services offered, we can provide you with cost effective solutions to deliver consistent results.
